10. SBC(I) awards, criteria and procedure for applying
11. SBC(I) awardees
12. Current list of life members with address
13. Acknowledgments
GOALS AND ACTIVITIES OF SBC(I)

To meet a long felt need of scientists working in the discipline of biological chemistry "The Society Of Biological Chemists (India)" was founded in 1930, with its Head Quarters at Indian Institute of Science, Bangalore. It was registered under the Societies Act in the then princely state of Mysore and the memorandum of registration was signed by the late Profs. V. Subramanian, V. N. Patwardhan and C. V. Natarajan, who were leading personalities in the scientific firmament during that period. The Society played a crucial role during the Second World War by advising the Government on the utilization of indigenous biomaterials as food substitutes, drugs and tonics, on the industrial and agricultural waste utilization and on management of water resources. The other areas of vital interest to the Society in the early years were nutrition, proteins, enzymes, applied microbiology, preventive medicines and the development of high quality proteins from indigenous plant sources.

PROGRESS OVER THE YEARS

The original objectives of the Society were to coordinate the work of biological chemists in different parts of India; to hold meetings and symposia for discussions on important topics of scientific and technical interest and for presentation of original papers; to publish Annual Reviews of Biochemical and Allied Research (carried out in India), and monographs on special topics in biological chemistry; and to publish a journal when sufficient funds become available. A journal was started in 1961, thanks to the untiring efforts of the late Profs. P. S. Sarma, A. Krishnamurthy, A. N. Radhakrishnan, L. K. Ramachandran, D. P. Burma, T. Ramasarma and several other members of the Society. This journal was originally published as the Indian Journal of Biochemistry but is now appearing as Indian Journal of Biochemistry and Biophysics at present. The Journal celebrated its Silver jubilee in 1988, and on this occasion, with the enthusiastic support of many members of our society, an excellent issue of the journal was brought out. Another effort of the Society which
met with some success was the establishment of the Biochemical Unit at the V.P. Chest Institute at the University of Delhi to overcome the shortage and circumvent the difficulties involved in procuring biochemicals from abroad. This laboratory established by CSIR at the initiative of the Society has strived against many odds and has achieved many successes.

A major activity of the Society has been to hold symposia and annual meetings. The Society has sponsored large number of symposia, seminars and workshops in which both National and International scientists have participated. Recently, however the symposia activity is mostly confined to the Annual Meetings. The Society took the initiative of establishing links among biochemists working in various laboratories in Asia and Oceania. The Federation of Asian and Oceanian Biochemists and Molecular Biochemists was the culmination of the efforts spearheaded by SBC(I) and Biochemical societies of Japan and Australian. In addition, the membership of FAOBMB at present includes societies from Pakistan, Bangladesh, Malaysia, Thailand, Korea, Hongkong, NewZealand, Singapore and Hawaii.

MEMBERSHIP

The membership of the Society from a modest beginning of less than 100 members in 1930 as been growing steadily. In 2006 the total membership of the Society stands at 2,900 of which 1700 are life members. An important feature of the composition of members is that students form the major group.

NEWS LETTER

Using the news Letter as a medium for dissemination of information, the Society has been able to coordinate the work of biological chemists in different parts of India. In addition, various meetings, symposia and awards are announced through this news letter. The news letter features articles and reports on topics of scientific & technical interest. The additional feature of the news Letter includes history and activities of institutes engaged in biological research in India, a news bulletin board listing the Society activities, articles on science policy and material and products reviews.

WEB PAGE

The Society has a web page (www.iisc.ernet.in/sbci) through which various information and activities of the Society can be accessed.

AWARDS
In order to recognize the meritorious and significant contributions made by the members of the Society on the development of biological sciences in the country, the Society has instituted the following awards: M. Sreenivasaya memorial award (1972); P. S. Sarma memorial award (1973); A. Krishnamurthy award (1976); M. Shadaksharaswamy lecture award (1982); P. B. Rama Rao memorial award (1983); P. A. Kurup lecture award (1991); Best Poster award; B. S. Narasinga Rao best poster award (1992); C. R. Krishna Murti award (1995); I. S. Bhatia award (2000); and the A. N. Bhaduri award (2006). The recipients of these awards have been listed in this book.

In order to encourage young scientists, especially the student members of the Society, as well as to popularize Indian Journals, the Society instituted the A. Krishnamurthy award for the best paper published in an Indian Journal and B.S. Narasinga Rao best poster award for the papers presented at the Annual meetings of the Society. The Society has instituted a "Financial support for research" scheme to support young research workers to carry out short term training/research activities in well established laboratories/institutions in India.

The branches of the Society are located all over India. To start a branch, there should be at least 20 members and the local members shall authorize one of them to act as a Convenor. It is clear that the effort of the branches in conducting branch activities have helped in SBC(I)’s growth. Year after year, many branches have organized several meetings and workshops. It has been the Society’s policy to support such activities to the extent possible.

Each year, the major activity of the Society is to hold its annual scientific meeting. The venues of the annual meetings are enclosed. These annual meetings have attracted large number of leading scientists from all over India. The Society has been able to successfully maintain an intense scientific activity at these meetings. The major event in Society’s history was the 16th IUBMB Congress in 1994 and the 10th FAO/BMB Congress 2003.

In short, the Society has grown over the years to be a giant among the professional societies of India. Leading scientists from different areas of Biological Sciences have put in enormous efforts in shaping and strengthening of the Society to its present stature.

The above article was compiled from: (i)Biochemical Review Vol L - 1980 ; (ii)16th IUBMB Souvenir ; (iii)SBC(I) News Letter Vol- 71.
RULES AND BYE- LAWS

SOCIETY OF BIOLOGICAL CHEMISTS (INDIA)

RULES

I. The Society shall be known as the SOCIETY OF BIOLOGICAL CHEMISTS (INDIA) with Headquarters at the Indian Institute of Science, Bangalore 560 012. It shall be a non-profit organisation and is registered under the Mysore Societies Registration Act No. 3 of 1904 (Registration No. 1595/57-58).

II. The object of the Society shall be the advancement of knowledge in the field of Biological Chemistry. The Society shall serve as a medium for the co-ordination of the activities of Biological Chemists and shall for this purpose,

   a) arrange scientific meetings either under the exclusive auspices of the Society or jointly with others;

   b) publish reviews, journal, abstracts of the scientific meetings in India and monographs.

   c) support scientists attending and presenting a paper in an International Congress or FAOBMB meeting.

   d) provide financial support for research scheme to support young research workers to carry out short term training activities.

   e) provide travel fellowships to students to attend International meetings.

III. Office- bearers of the Society : One President, three Secretaries and one Treasurer shall be the office-bearers of the Society.

   a) The president shall hold office for two years.

   b) The Secretaries and the Treasurer shall hold office for three years and are eligible for re-election.

   c) No person shall be eligible to be an office-bearer of the Society unless he has been a member during the two preceding years.
IV. The business of the Society shall be conducted by a Committee consisting of the office-bearers, three elected Vice-Presidents, members of the Editorial board and in addition, not more than thirty elected members of the Committee.

a) The three Vice-Presidents shall hold office for two years and shall be eligible for re-election. One of the Vice-Presidents shall be resident at the Headquarters, when the President is not from Bangalore.

b) The elected members of the committee shall comprise at least one member elected from each branch (Convenor) but not more than three from any branch. They shall hold office for three years and are eligible for re-election.

c) No person is eligible to be a member of the Committee unless he has been a member of the Society in the previous year.

BYE- LAWS

1. Membership

   A) Honorary Members:

   The Committee may recommend to the General Body, the election of scientists of eminence in India and abroad as Honorary Members of the Society. Such Honorary members when elected by the General Body shall exercise all the rights of the Ordinary members. The number of Honorary members shall not exceed 20 and not more than two shall be elected in any one year.

   B & C) Life and Ordinary Members:

   Qualified Research Workers shall be eligible. Every nomination shall be duly proposed by a member of the Society on the application form supplied by the Secretary. The nomination shall be placed before the Committee, who shall have the power to admit him as a member or not.

   D) Student Members:

   Bonafide students of Colleges, Universities and Research Institutes working towards a degree (certified by the teacher) shall be eligible to be admitted as Student Members of the Society.
E & F) Patron Members and Sustaining Members:

Organizations interested in furthering knowledge in biological sciences are eligible. Nominations for election shall be sent by a member of the Society in the form of a letter and shall be approved by the Committee.

2. SUBSCRIPTION FOR MEMBERSHIP

A) No subscription shall be collected from Honorary members.
B) Rs.1500/- shall be the subscription for Life membership.
C) Rs. 250/- per year shall be the subscription for Ordinary membership
D) Rs.200/- per year shall be the subscription for Student membership.
E) Rs. 5,000/- collected in one installment shall be the subscription for Patron membership.
F) Rs.1000/- collected in one installment shall be the subscription for sustaining membership.

The membership year shall be the Calendar year.

All yearly subscriptions should be paid before 31st March of that year. Any subscriptions received after April 1st may be credited to the member’s account for the succeeding year at the discretion of the Secretary. No new members may be enrolled for any year after July 31st.

3. PRIVILEGES OF THE MEMBERS

A) All the members are eligible to vote at the General Body Meeting. Patron and sustaining members shall have one vote each.
B) Honorary, Student, Patron and sustaining members shall not be eligible for election as an office-bearer of the Society.
C) At a meeting of the Society when an open invitation for abstracts is notified, every member is eligible to submit one abstract. No member is eligible to present more than one abstract. A member may be an author on any member of abstracts
D) All members are eligible to receive the Proceedings of the Society and the Biochemical Reviews.

4. FORFEITURE

A) Any member who is in default of subscription for two consecutive years shall forfeit his membership.
B) If at any time, the Committee be of the opinion that the interests of the Society require the removal of a member they shall submit the proposal, after giving due notice to the member concerned, to a General Body Meeting (Ordinary or Special) at which, if three-fourths of the members
present and taking part in the voting, vote for the removal of the member, he shall forthwith cease to be a member of the Society.

5. THE COMMITTEE

The affairs of the Society shall be managed by the Committee and the Secretaries shall act as the Executive officers of the Committee.

A) The nominations of persons for election to the Committee shall be made by the outgoing Committee after considering the proposals received from members.
B) The term of office of all office-bearers and members of the Committee of the Society shall commence from the date of election and shall extend till the assumption of office by their successors.
C) A member of the Committee may resign his office by sending his resignation to the Committee and on its acceptance by the Committee, but not until then shall cease to be a member of the Committee.
D) In the event of a vacancy arising in the Committee between two meetings of the General Body, the President in consultation with the Committee shall have powers to fill the vacancy from amongst the members of the Society till the next meeting of the General Body.
E) The Committee shall have full powers to transact business in case of emergency not provided for in these bye-laws in a manner considered by them conducive to the good of the Society. Any such action taken or regulation formed shall be placed before the next General Body Meeting for consideration.
F) Meetings of the Committee shall be held periodically at the discretion of the Committee. Nine members of the Committee shall form a quorum.
G) At least eight day’s notice of a meeting of the Committee shall be given by the Secretaries to each member of the Committee and such notices shall, as far as practicable, contain a statement of the business to be transacted at such meeting.
H) To transact urgent business, the Secretary shall be empowered to call for an extra-ordinary meeting of the Committee for which restrictions regarding notice and quorum will not apply. At least the President or one of the vice-presidents shall be present at this meeting and the decisions taken should be placed before the next meeting of the Committee for ratification.
6. ELECTION AND DUTIES OF THE COMMITTEE

A) OFFICE-BEARERS

1) Election:

The nominations for election as office-bearers of the Society shall be called for at least one month before the date of the Annual General Meeting. If no nomination is received for any office, the Committee shall be empowered to nominate. The nominations shall be duly proposed and seconded by a member of the Society. The approval of the nominee is to be obtained by the member nominating. An office-bearer shall be elected by a simple majority of the members present at the General Body Meeting. In case of contest, election may be by secret ballot.

2) Duties:

a) The President shall be the executive and administrative Head of the Society and the other office-bearers shall work under his instructions and guidance. He shall preside over the General Body and Executive Committee meetings in which he shall have a vote and a casting vote. In his absence one of the Vice-Presidents, or failing him any other member elected by the members present to preside over the meeting, shall have the same powers for the time being.

b) The Secretaries shall be responsible for the day-to-day activities of the Society. They shall keep minutes of all proceedings of the Society and the Committee. They shall convene the meetings of the Society and the Committee. They shall maintain proper records of all properties of the Society and shall be responsible for their safe custody. This refers to all articles whether received for payment or in exchange, or as gift. They shall prepare and submit to the Annual General Body Meeting, an Annual Report describing the activities of the Society during the year.

c) The Treasurer shall receive subscriptions, fees, donations and other funds of the Society and shall issue receipts in respect of each. He and one of the Secretaries nominated by the Committee shall operate the funds of the Society on behalf of the Committee. He shall maintain the accounts of the Society in the proper form and be responsible for the preparation and submission to the General Body an Annual Balance Sheet duly certified by the Auditor. He shall prepare a budget estimate of income and expenditure for each year and submit it for the approval at the Annual
Meeting of the Society. He shall prepare a monthly statement of receipts and expenditures. This statement shall be signed by him and shall be approved by the Committee.

B) COMMITTEE:

1. **Election**: The election shall be governed by Bye-law No. 6A(1)

2. **Duties**:

   a) **Vice-President**: One of the Vice-Presidents shall perform the duties, and exercise the privileges of the President during the latter’s absence or when specially requested by the President to do so.
   b) **Committee**: The Committee shall be responsible for the proper functioning of the Society.

7. **THE GENERAL BODY**

   a) The General Body of the Society shall consist of all classes of members.
   b) The Annual General Body Meeting shall be held as far as possible every year in November or December at which
      i) the report of the retiring Committee and the accounts for the year shall be considered;
      ii) office-bearers for the new year shall be elected;
      iii) scientific sessions shall be arranged where in members could present papers;
      iv) such other business as the Chairman (who shall be President or Vice President or a member who may be elected from amongst the members present) may allow, shall be transacted.

   c) The committee shall call for a meeting of the General Body any time by giving the members 30 days notice of the date and time and the object for which the meeting is convened, or on receipt of a demand in writing signed by not less that 50 members setting out the purpose for which they desire such a meeting. The Committee shall decide the place, date and the time of such a meeting. The quorum for the meeting of the General Body shall be 51 members.
8. EDITORIAL BOARD

The Committee shall have the power to appoint an Editorial Board to look after the publications of the Society and the Editorial Board shall consist of 3 members and one of the Secretaries. The term of office of the Editorial Board shall be for one year.

9. FINANCE

a) The membership year of the Society shall commence from 1st January and end on 31st December of the year.

b) The financial year of the Society shall commence from 1st April and end on 31st March. The accounts of the Society shall be audited by a chartered accountant nominated by the Committee.

c) The Committee shall control the finance of the Society and sanction expenditure within the limits of the budget approved by the General Body at its Annual Meeting. In cases of urgent necessity the Committee shall have powers to authorise any reasonable expenditure beyond the budgeted amount and report it to the General Body at its next meeting.

d) The Society's bank account shall be operated by the Hon Treasurer and one of the Secretaries nominated by the Committee.

10. BRANCHES

a) The Committee shall have the power to approve the formation of a branch of the Society in a locality where there are at least 20 members.

b) To start a branch, the local members shall authorize one of them to act as the Convener. The convener shall write to the Secretary requesting the authorization of the Committee for starting a branch. On approval, the Convener shall be a member of the Committee and shall be responsible for conducting the affairs of the branch. The branch shall elect one of its members as a Hon. Auditor who shall audit all expenses of the branch.
c) The Rules of the branch shall provide inter alia;

i) Name: Society of Biological Chemists (India) ………..Branch;
ii) that the objects of the branch shall be same as those of the Society;
iii) that only members resident in that area allotted to the branch shall be eligible to be members of the branches;
iv) that the branch shall hold meetings from time to time for the purpose of advancing the objects of the Society, maintaining interest in the activities of the Society, reading papers and holding discussions.

d) The branch shall be eligible to receive 25% of the subscription collected from members of the Society resident at the branch and Rs.7.50 for one old life member of that branch. The Committee shall have the power to make ad-hoc grants to the branch on special request.

e) The Convener shall submit to the Hon Secretary an audited statement of accounts and the report of the activities of the branch before September 30.

f) The Convener shall be a member of the Committee and in addition the branch could nominate an additional member.

11. SYMPOSIA

Symposia are sponsored by the Society of Biological Chemists (India) on All India basis.

Symposium on a special subject arising out of suggestions from a member or a local branch of the Society shall be scrutinized by the Secretary and placed before the Committee for approval. The Committee shall have the authority to approve the holding of the Symposium.

For each Symposium a Convenor or Conveners shall be nominated by the Committee in consultation with the local group or branch.

The following are the guidelines for the organization of the Symposium:
1. The first announcement of the Symposium shall be made by the Headquarters of the Society of Biological Chemists, India as early as possible (normally 6 months prior to the meeting).

2. In the event the Symposium is run under joint sponsorship of the Society and other organization(s), SBC(I)’s name and participation shall be given equal prominence.

3. The Convenor is empowered to co-opt any member of the Society either of the local branch or outside to help in the organization of the symposium.

4. The duration of the Symposium shall not be ordinarily more than three days.

5. The Society shall contribute at the daily rate of Rs.10,000/- for smaller cities and Rs.15,000/- for bigger cities.

6. The Convener shall have the freedom to obtain financial and other assistance from any institution, organization or Government. The Convener can charge a registration fee for attending the Symposium and he should attempt to give a concessional rate to the members of the Society.

7. The Convener shall furnish to the Headquarters of the Society of Biological Chemists (India) within three months of holding the Symposium, an audited account (a member of local branch can act as an Hon. Auditor) for all the money received the organization of the Symposium.

8. The Convener shall have the discretion to invite the speakers to the Symposium. It will be appreciated if the list of invited speakers is prepared in consultation with the office bearers of the Society of Biological Chemists (India).

9. The Symposium shall consist mainly of invited papers of 30 minutes to 60 minutes duration (25 min reading + 5 min discussion, or 50 min reading + 10 min discussion) and short papers on the topic submitted by members of the Society of Biological Chemists for reading in the symposium. It is desirable that the program is drawn up in consultation with the Secretary, Society of Biological Chemists (India).

10. The papers included in the program of the symposium shall pertain to the topic of the Symposium. There can, however, be an additional day set apart for reading of papers in fields other than the Symposium topic. This shall be only an activity of the local branch and the abstracts of the papers read here shall not form part of the symposium proceedings.
11. The abstracts of the papers included in the programme of the symposium shall be printed in the size and style of the Biochemical Reviews published by the Society of Biological Chemists (India). Printing of abstract is preferably done by the Headquarters so as to maintain uniformity in the getup of the Society publications. When the printing is done by the Convener, he shall supply to the Society a certain number of copies of the abstracts indicated by the Secretary.

The abstract shall conform to a specimen copy, which shall be sent to the Convener.

12. The Convener shall inform periodically the progress in the organisation of the symposium to the Secretary, Society of Biological Chemists (India).

12. PROCEDURE FOR MAKING MODIFICATIONS IN THE RULES

a) Rules: The following procedure shall be observed for making any additions to or alterations in the Rules of the Society.

Proposals for additions to the alterations in existing rules by any member of the Society shall be sent to the Committee so as to reach them eight weeks before the Annual General Body Meeting. These proposals shall be placed before the General Body by the Committee.

The Rules are subject to alteration at the General Body Meeting when approved by not less than two-thirds of the members present and a simple majority of all the members of the Society. The Secretary shall be authorized to obtain this approval by post, if necessary.

b) Bye-Laws: Same as per Rules except that the requirement of approval by a simple majority of all members of the Society shall not be necessary.

Reminiscences on the Development of the Society of Biological Chemists:  
A Personal Perspective

Prof. N. Appaji Rao  
President (1987-1988), SBC(I)  
Department of Biochemistry  
Indian Institute of Science  
Bangalore 560012

It has been my privilege and good fortune to witness and participate in the growth of the Society from humble beginnings to a leadership position today. I was, therefore, very happy to grab the opportunity, when Dr. D. Nandi, the Hon. Secretary, asked me to contribute an article to be included in a book to commemorate 75 years of the Society’s founding. I wish to share some of my random thoughts on a few key events in which I was involved. These are personal observations and some may even consider them as prejudiced! This is definitely not a historical account.

I enrolled, or was it corralled, as a member of the Society of Biological Chemists, India, (SBC(I)) in July of 1956, when the Society had the appendage “and Allied Sciences”. I had just then joined the Department of Biochemistry, Indian Institute of Science, Bangalore, as a student. My Professor, the late Prof. K. V. Giri, was the President of the Society and I was not foolhardy enough to say, NO, when I was asked to become a member. The membership fee was Rs.5, which may appear meager to the present membership. It was a huge amount to a fresh student who had to work without a scholarship. I had to sacrifice at least six visits to nearby movie houses! I became a Life member when the fee was Rs.50 and it is probably more than ten times that number now. This reflects the phenomenal growth of the Society or is it inflation!

By coincidence, when I became a member, the Society had just completed its Silver Jubilee and this article is to commemorate 75 years, which means half a century has gone by! During all these years, the Society’s HQ has remained in the same basement room, below the road level, subject to flooding every time it
rained in Bangalore, which was frequent in those years. The reason for staying on at this location is probably sentimental, as several offers to move to better accommodation have been rejected by several sets of office-bearers. The office has an elegant appearance today, thanks to the efforts of the Hon. Secretaries in recent years. Another example of our attachment to the past - the Society’s name has remained essentially unchanged, although most Societies in the world have added "molecular biology". In retrospect, it may have been wiser if reality had ruled over sentiment!

The membership was a mere 40 then and has grown to more than two thousand today. The membership was confined to a few cities reflecting the limited number of centers practicing biochemistry then. The decision to add ‘student membership’ and open it to M. Sc. students was a major factor responsible for the increase in membership. One group that took advantage of this rule was Home Science College in Coimbatore, who added much needed color and glamour to our Annual Meetings! This was much needed attraction as our meetings invariably coincided with exciting events, such as the two Pakistan wars, language and Mandal agitation, floods and even the out-break of plague! I remember one occasion in particular. Prof. Kunio Yagi from Japan was the chief guest at the Annual Meeting in Tirupathi. He landed in Chennai, then Madras, on the day M. G. Ramachandran, the darling of Tamil cinema and the ruling Chief Minister of Tamil Nadu, passed away. All of us were filled with anxiety for his safety. The bubbly old gentleman in a bowler hat walked through the streets of Madras having a whale of a time, placing flowers and lighting incense sticks at the photographs of MGR placed at the street corners. He said that this was most interesting experience he has had in all his travels around the world. I shudder to imagine what would have happened if he had arrived in Bangalore recently when a similar tragedy overtook us! Our attitudes have changed remarkably with time. Our annual meetings provided varied experiences! The presence of students made the meetings lively. An attractive feature was an interactive session, organized a day prior to the meeting, between students and a few enthusiastic teachers. These involved discussion of unpublished nuances in carrying out experiments as well as lectures in fundamentals. These sessions greatly sharpened the insights of the teachers, at least in my case an understanding of enzyme kinetics and allosteric regulation of enzyme activity! I do not know whether the audience benefited but several of participants in this activity who are leaders of science in the country today tell me, they miss these sessions. Sadly this activity has disappeared from our meetings, although it is functioning in a new avatar, Trendys.

An important activity in earlier years was the organizing of small sized symposia at different places in the country. This was an effective method of updating knowledge and building bridges among research laboratories in the country. This has slowly withered away. The on-line science of today has probably made this redundant!
The Society can feel justifiably proud that it has held its Annual meetings with just a couple of breaks since it’s founding and the scientific content has always been high. The breaks were during the Second World War. In the early years it would hold its meetings at a borrowed or some times surreptitiously taken over hall, at the venue of the Indian Science Congress. As soon as funding agencies realized the quality of our meetings, it was possible to hold them in places of our choice. Another advantage was it enabled SBC to organize its meetings in newly established departments, providing them an opportunity for them to interact with scientists from different parts of the country and also gain recognition as centers of higher learning. It also enabled me to have ‘Bharath Darshan’ of Biochemistry laboratories rather than pilgrimage centers!

It also facilitated the Society to organize meetings jointly with Societies outside the country. The first such meeting was held with the Biochemical Society (UK), at Bangalore in 1967 followed by a second meeting at Baroda. Looking back at this event, I am amazed how cooperative Heads of the Institutions and granting agencies were to this experiment. It was a challenging task to organize this meeting, as we had to not only worry about the scientific program but also deal with contractors, carpenters, masons, projectionists etc. We even had sessions in a concert hall! We had to furnish the lecture halls, find different types of accommodation from dormitory to five star, transport, entertainment etc. The adage that when things change, they are still the same was forcefully shown when we organized the XVII IUBMB Congress in 1994. The meeting was organized in a five star hotel but we had to face the same hurdles! Reciprocally, Biochemical Society, UK arranged a meeting at Lancaster, UK. These interactions laid the foundation for the idea that Societies in this part of the world should come together to form a Federation. Prof. H. R. Cama, the then President of the Society met with Prof. E. C. Webb of Australia and Prof. O. Hayaishi of Japan (in Tokyo), to work out the modalities of forming the Federation. A formal memorandum to establish the Federation of Asian and Oceanian Biochemists was signed in a tandoor restaurant in Delhi by the Japanese and Australian Biochemical Societies and the SBC(I)! The second FAOB Congress was held in Bangalore, (1973) following the first in Nagoya, Japan. We also hosted a recent (2003) FAOBMB congress in Bangalore and it was elegantly organized indicating that new infrastructure was available and the Secretaries had learnt to do an excellent job. Our international links due to our presence in FAOB and the good will of many friends abroad, especially Prof. Kunio Yagi, enabled us to convince the International Union of Biochemistry and Molecular Biology to hold their XVII Congress in India. It was gratifying to note that an Hon. Member of our Society was elected as President of IUBMB at this meeting. The generous support of the Govt. of India and the enthusiastic support of our members enabled us to organize an excellent meeting. It was a remarkable achievement, as 10 plenary lectures (including 2 by Nobel laureates), 11 parallel symposia sessions and more then 2000 posters were presented during the 4-day meeting. Delegates from more than sixty countries attended. The feedback of scientists from several countries at later meetings indicated that this was the best Congress that they
had attended! One popular activity at this meeting was lunch, which was attended invariably by all delegates. In fact it was so popular, that a couple of hundred locals gate crashed with xeroxed lunch coupons! Unfortunately, we have not been able to build on this goodwill to ensure the election of one of our regular members as President, IUBMB. I hope it will happen sooner than later.

Another major activity of the Society, in which I was involved was, publications. An early publication of SBC was Annual Reviews of Research in Biological Chemistry and Allied Sciences in India. This was modeled on Annual Reviews of Biochemistry published by Academic Press, USA. It was started at the same time or may be even earlier! I had nothing to do with the choice of the authors but some body in EC must have thought, I could read and write and I was therefore entrusted with the job of editing the manuscripts received and getting them printed. As always, I enthusiastically corrected a few articles of senior professors and learnt that there are many ways of writing English! The greater hurdle was printing. The composing, fifty years ago, was done by picking the letters and arranging them by hand by a person who knew the alphabets but not words, much less the language! This made proof reading hilarious! After painstakingly making all the corrections, and ensuring they were carried out and locked in a frame, you heaved a sigh of relief. One did not know that a (printer’s) devil was lurking around the corner. The printer would drop the tray containing all the lead letters attempting to fix it to the machine. You were back to the starting line. You had to go through the exercise all over again! This publication of the Society was transformed a few years later into “Biochemical Reviews” published in collaboration with the Council of Scientific and Industrial Research. It became similar to ARB and the articles were published in JSIR. The fun with the local printer was over. However, all solutions generate new problems. Some authors used the Ph. D. thesis Introduction of their students, as articles for Biochemical Reviews. This practice landed me often, into a cauldron. On one occasion, the article was completely lifted from a book, fortunately authored by a friend. He raised a huge furor, but could be appeased by an apology! Kaavya does not have priority. When the reviewing became stricter, the articles dried up and the Biochemical Reviews was given a quiet burial. The changed scenario of journals publishing review articles made this publication probably redundant.

The collaboration with CSIR in the publication of IJBB still continues. The memory of the Annual meeting at Hyderabad at which an agreement to publish the journal is still fresh in my mind. It was a memorable meeting at which in a short period of two hours not only was the journal born, an award for the best paper published in the journal was established! In the early years, the abstracts of the Annual meetings were published as a supplement to the journal. This enabled several of us to boost the number of publications! May be for this reason this was discontinued. Unfortunately, the impact factor of the journal is still low. This probably reflects the reality that our scientific effort does not produce sufficient amount of good publications to sustain a high quality journal!
The Society, in the early years, was highly pro-active with the scientific hierarchy and administration. It fought many battles! For example, it fought a vigorous battle when a flourishing laboratory was to be closed down. Our intervention was probably a factor responsible for a reversal of the decision. I received a tongue lashing from a doyen in Chemical research and the head of the administration of the organization concerned for meddling! It is gratifying to note that this laboratory is a shining star in our scientific firmament today. It also took up the cause biochemists working in medical institutions. Finally the Govt. of India agreed to make biochemistry, an independent discipline and abolished the clause that biochemistry can only be taught by medically qualified persons! Gradually this decision has been eroded. A similar situation exists in agricultural institutions now, where no discrimination was present earlier. It successfully fought for establishment of independent departments of biochemistry in several universities. It is sad to note today that the Society is not battling many social issues affecting science. Is it, that there are no battles to fight!

I would like to conclude by mentioning that it has been a pleasure and privilege to serve the SBC in all capacities- a member, secretary, Secretary General IUBMB Congress, treasurer, vice president and a president (elected by a ballot!). I greatly cherish the 50 years on my association with SBC.
Biochemistry is the mother of all evolution in Life Sciences. It is immaterial whether the science is done in the departments bearing the name ‘Biochemistry’ or with some other nomenclature. At the turn of the last century, J. C. Bose (of Microwave fame) as Professor of Physics at the Presidency College, Kolkata, carried out sensitive experiments on the response of plant growth, tropic movements and motile organs in plants, to excitation current on the basis that bioelectric potential and its propagation are fundamental to living systems. These studies on electrophysiology laid the basis for understanding the chemical processes mediating these responses. In the early 1900, two of the oldest schools of biochemistry in the country were embedded in the Departments of Applied Chemistry. I believe these schools are today represented by the flourishing departments of Biochemistry at the Indian Institute of Science (IISc), Bangalore and at the Calcutta University, Kolkata. These departments were formally established in 1921 and 1956, respectively. In a sense the sister life science departments in these institutions should also be considered as evolved from Applied Chemistry.

True to the name, early studies at Bangalore were devoted to applied aspects. These ranged from essential oils for perfume industry including sandal wood soap factory, Lac from insect material, acetone from fermentation of flowers to war time requirements of medicines, solvents and other materials. Fermentation of natural products was the main strategy. The shift to mechanistic studies started with efforts to understand the oxidative processes involved in sewage purification. Then came the emphasis on nutrition and an assessment of the nutritive value of natural foods. Entry into mechanistic studies on infective processes was achieved with efforts to understand the basis of sandal wood spike disease. This phase spanning around fifty years up to almost a decade after independence was marked by close interaction with industry and generation of new institutions. For example, the Lac Research Institute at Ranchi and the Central Food Technological Research Institute (CFTRI) at Mysore owe their origins to research and people at IISc, Bangalore.

Interestingly, another eminent biochemist, Biresh Chandra Guha from Kolkata, played an important role in the establishment of CFTRI at Mysore. B. C. Guha was a multifaceted personality with talents beyond those of a Professor of Biochemistry! His sojourn included the All India Institute of Public Health (precursor of the Indian Institute of Chemical Biology, Kolkata), Bengal Chemical and Pharmaceutical works, Department of Applied Chemistry and Damodar
Valley Corporation! He was, of course, responsible for the birth of the Department of Biochemistry, Calcutta University. A central figure in the early Calcutta School, among other things he pioneered the preparation of proteins from grasses and made vegetable milk available to children during the Bengal famine in 1943. His background research training abroad led him to do research on vitamins with passion. The pioneering contribution of his group was on the biosynthesis of vitamin C and the basis for evolutionary differences in the capacity to synthesize ascorbic acid. The loss of the terminal enzyme L-gulonolactone oxidase was shown to be responsible for the inability to make Vitamin C in some animal species, including humans. He is credited with starting summer schools in Biochemistry and was responsible for carrying out a review on biochemistry education in the country in 1959, on behalf of the University Grants Commission, that laid down the road map for the future. The unique Gordon-type of research conference in India, which he started, is named after him (Guha Research Conference) for his pioneering contributions. The Centre for Genetic Engineering, Calcutta University, bears his name as well.

Modern Biochemistry research, perhaps, started in the mid 1950s. Apart from B. C. Guha’s pioneering contributions on ascorbic acid synthesis, M. C. Nath at the Department of Biochemistry (established in 1946), Nagpur University contributed significantly to studies on lipogenesis, fat and sugar metabolism in Diabetes and other systemic disorders. The Department of Biochemistry at Baroda was established in 1955 and specialized in neuroscience and nutritional biochemistry. At IISc, K. V. Giri established separation techniques to analyse small biomolecules, especially by paper chromatography.

With the untimely death of B. C. Guha, Biochemistry in the country evolved in the hands of leaders such as P.S. Sarma (IISc), B. K. Bachhawat (Christian Medical College, Vellore), Debi Burma (Banaras Hindu University, Varanasi) and others. Enzymology and protein chemistry took deep roots. Fundamental studies on cell surface and membrane biochemistry, plant and microbial metabolic pathways, electron transport and oxidative phosphorylation were carried out. The study on vitamins and their role was a major theme in India for decades. Vitamin A dominated studies at Bangalore, Vitamin C at Calcutta and B Vitamins all over the country. I don’t think we ever solved the vitamin deficiency problem! The role of vitamin A in tadpole organ differentiation, an important contribution from Utkal University, Orissa, missed the attention for a long time.

P. S. Sarma took steps in the 1960s to establish groups in molecular biology and immunology (eventually turned out to be endocrinology!) at the Department of Biochemistry, IISc. The research revolved around nucleotide chemistry and their immunological properties. Studies on unusual bases in tRNA and bacteriophage assembly were carried out. Bacterial and phage molecular genetics dominated the scene at Calcutta University. An important contribution was also a study on
signal transduction pathways in plants involving IP3 pathways. Debi Burma established an active school at Banaras Hindu University, which specialized in phage biology and new concepts on the role of RNA as a catalytic molecule. The importance of the RNA world was highlighted and together with the Calcutta School the primary role of RNA in ribosome assembly was established.

Recombinant DNA research and gene cloning employing a variety of biochemical techniques emerged towards the late 1970s. The Jawaharlal Nehru University, New Delhi pioneered the study of nitrogen fixation genes in microorganisms. Visionaries, still amongst us, conceived the creation of first class research institutions such as the Centre for Cellular and Molecular Biology, Hyderabad and the National Institute of Immunology, New Delhi. These also contributed to the growth of recombinant DNA research in the country. I was one of the few who had embarked on gene cloning approach early. However, in the beginning I had difficulty in getting my work on rat liver cytochrome P-450 gene and its transcriptional regulation recognized as worthy to become a member of the exclusive genetic engineering group formed at IISc! It had to be only E. coli and, of course, what was true of E. coli had to be true of an elephant! The concept of gene basis of behavior using sense of smell in Drosophila as a cue was a pioneering contribution from the Tata Institute of Fundamental Research, Mumbai. Many laboratories in the country slowly acquired the expertise to clone and characterize genes. DNA sequencing was still a bugbear and many would get that part of the work done abroad, which one could make out from the quality of the slides!

Slowly emphasis on the biochemistry and molecular biology of the organisms causing infectious diseases gained ground. Significant studies on intermediary metabolism in Mycobacterium tuberculosis were carried out at Delhi University and IISc. A significant observation was the correlation between lack of catalase activity and resistance to Isonicotinic Hydrazide in Mycobacterium tuberculosis. Vibrio cholerae and Leishmania donovani became major foci of studies on DNA recombination, membrane properties and unique metabolic pathways, for groups in Calcutta. Jyotirmoy Das and Amar Bhaduri made important contributions on Vibrio cholerae and Leishmania donovani, respectively. But, the pioneering contribution of S. N. Dey at the Nilratan Sircar Medical College, Calcutta in the 1950s on cholera toxin and the rabbit ileal loop technique was lost in obscurity! His paper on the subject, however, is a citation classic! At the Jawaharlal Nehru University, New Delhi, the biochemical basis for the dimorphic character of Candida was established.

Simultaneously, structural studies emerged very strongly with G. N. Ramachandran coming up with the triple helical structure of collagen and the famous bond angle calculations and the Phi–Si plot to study protein conformation, at the Madras University. G. N. Ramachandran moved to IISc and the structural elucidation of macromolecules and even viruses using X-ray
crystallography as a tool in particular made a strong impact. Today there are also excellent research groups in this area at NII and All India Institute of Medical Sciences, ICGEB, New Delhi and elsewhere.

From mid-1980 onwards there has been a virtual explosion in the quality of Life Sciences research in the country. The establishment of a cluster of institutions such as the National Centre for Cell Science, Pune, National Centre for Plant Genome Research, New Delhi, Centre for DNA Finger Printing, Hyderabad, and the International Centre for Genetic Engineering and Biotechnology, New Delhi, by the Department of Biotechnology, National Centre for Biological Sciences, Bangalore by the Department of Atomic Energy, along with the other institutions already mentioned, some university departments and CSIR laboratories, has made a quantum difference to the quality of research. Some of the major contributions are: molecular basis of immune response and B cell maturation, molecular mimicry, protein folding, DNA transactions in *Mycobacterium*, transcriptional regulation in baculovirus and silk worm, unique features of metabolic pathways in *Leishmania* and malaria parasite, basis of osmotic regulation in bacteria, liposomes for drug delivery, combinatorial biosynthetic strategies, DNA analysis to assess animal species variation and biodiversity, genetic polymorphisms in diseases, plant genome and unique metabolic pathways, structure function studies in proteins, peptide antibiotics and toxins, cell surface chemistry, signal transduction pathways, cancer biology etc. There is considerable strength in utilizing Bioinformatics for a variety of applications especially genome studies. Moving on to genomics and proteomics and more recently to protein networks has been the pathway of evolution all over the world including India, except that we seem to have a phase difference of 5-10 years! Ultimately, one also finds that the Systems Biology approach to start with a big basket of genes or proteins to define say a disease process has to be broken down through classification and whittling down to a smaller number of genes or proteins of direct relevance. The final sets of genes have to be analyzed in terms of gene and protein characterization, protein-protein or protein-ligand interaction, enzymology etc. This, in my opinion, is back to basics in Biochemistry!

Overall, I think, India has done reasonably well and in the last decade one sees many publications in high impact journals from different laboratories. The concern is still many of the university departments and private colleges languishing for want of good human resource, more than infrastructure. Biochemistry teaching and education has indeed become a casualty, although Centers in Madurai-Kamaraj, Pune, Baroda, Delhi and Calcutta University Departments are doing their best. In the context of globalization, good quality research on an average in select institutions is not adequate. We need to have innovative and breakthrough concepts tested, established and exploited to put us on the world map. We need to worry about the generation of human resource at the grass root level. It is interesting to note that till the mid 1950s the emphasis was on applications and societal cause and in the latter part of the 20th century,
we lost this concern in the name of basic research. I get the distinct feeling that in the last 10 years, there is again an impetus to apply basic knowledge for product and process development in the name of Biotechnology. What is there in a name, Biochemistry or Biotechnology, as long as it can benefit the people!

P.S: I realize that in a write up of this kind, some important names and institutions would have been definitely left out! I can only state that it is not by design. To be on the safer side I have only mentioned the names of those colleagues who are not with us.

SBC(I) AWARDS: CRITERIA AND PROCEDURES FOR APPLYING

SREENIVASAYA MEMORIAL AWARD

Year of Commencement: 1972

Frequency: Once in three years

Value: Rs.5,000/- with a citation

Eligibility:

1. The award is for the best work done in the field of Biochemistry and Allied Sciences in India

2. The recipient of the award should not have completed 50 years before January 1st in the year for which the award is announced.

3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

4. A lecture will be scheduled at the Annual Meeting of SBC(I) and presentation will be made at that time.

P. S. SARMA MEMORIAL AWARD

Year of Commencement: 1973

Frequency: Once in three years

Value: Rs.5,000/- with a citation

Eligibility:

1. The award is for the best work done in the field of Biochemistry and Allied Sciences in India

2. The recipient of the award should not have completed 50 years before January 1st in the year for which the award is announced.

3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.
4. A lecture will be scheduled at the Annual Meeting of SBC(I) and presentation will be made at that time.

**A. KRISHNAMURTHY AWARD**

Year of Commencement: 1976

Frequency: Annually

Value: Rs.1,000/- with a citation

Eligibility:

1. The recipient of the award should be below 30 years of age on January 1, of the year of the award.

2. The paper should be in the area of Biological Chemistry and Allied Sciences and the work should have been carried out in India.

3. The paper published in any Indian Scientific Journal in the previous year will be considered for the award.

4. In the case of multiple authorship, the senior author can nominate one of the authors or could be shared by all the eligible authors.

5. It is desirable that the awardee be asked to present the work at the Annual Meeting of the Society.

**PROF. M. SHADAKSHARA SWAMY ENDOWMENT LECTURE AWARD**

Year of Commencement: 1982

Sponsor: Prof. M. Shadaksharaswamy Felicitation Committee.

Frequency: Once in three years

Value: Rs.5,000/- with a citation

Eligibility

1. Eminent teachers in Biological Chemistry & Allied Sciences at the postgraduate level in Indian Universities, deemed Universities and Institutions of higher learning for their contributions in teaching and research
2. No age limit

3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

4. The recipient of the award should give a lecture at the time of annual meeting of SBC(I) on a topic of his/her choice.

**P. B. RAMA RAO MEMORIAL AWARD**

Year of Commencement: 1983

Frequency: Once in three years

Value: Rs.5,000/- with a citation

Eligibility:

1. The award is for the best work done in the field of Biochemistry and Allied Sciences in India (suggested areas are nutrition, as related to cell and membrane biology, neurochemistry immunology, cancer research, biochemistry of brain etc.)

2. The award is open to all scientists working in India irrespective of their membership in the Society.

3. No age limit.

4. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

5. If nominations are not received before the scheduled date, the awards committee can itself nominate a suitable candidate for the award.

6. A lecture will be scheduled at the Annual Meeting of SBC(I) and presentation will be made at that time.

**PROF. P. A. KURUP ENDOWMENT AWARD**

Year of Commencement: 1991

Frequency: Once in three years
Value : Rs.5,000/- with a citation

Eligibility :
1. The recipient of the award should be below 60 yrs of age on January 1st of the year of the award
2. The award is given for Biomedical Research
3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.
4. The awardee should give a lecture during the Annual Meeting

BEST POSTER AWARD
Frequency: Annually 8 -10 awards depending on the poster sessions
Value : Rs. 500/- with a citation

Eligibility:
1. Best poster in all the poster sessions is selected by expert panel of judges
2. The awards will be given during the Annual Meeting

B. S. NARISINGA RAO BEST POSTER AWARD
Year of Commencement : 1992
Frequency : Annually 4 awards
Value : Rs. 500/- with a citation

Eligibility:
1. Four of the best poster awards in the following broad areas :
   a) Nutrition/toxicology
   b) Enzymology
   c) Clinical Biochemistry
d) Analytical Methods

2. The awards will be given during the Annual Meeting

C. R. KRISHNA MURTI AWARD

Year of Commencement : 1995
Frequency : Once in three years
Value : Rs. 5,000/- with a citation

Eligibility:

1. The award is for the best work done in the field of Biochemistry and Allied Sciences in India

2. The award is open to all Indian Scientists who must be member of the Society for at least two years or life member.

3. No age limit.

4. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

5. A lecture will be scheduled at the Annual Meeting of SBC(I) and presentation will be made at that time.

PROF. I. S. BHATIA AWARD

Year of Commencement : 2000
Frequency: Once in three years
Value : Rs.7,500/- with a citation

Field of research:
Original research contributions in Plant Biochemistry Molecular Biology & Allied Sciences

Terms and Conditions:

1. The Award will be considered for "life time" achievements in the above disciplines

2. The Awardee should give a lecture at the Annual General Body Meeting of the Society of Biological Chemists and should have been a member of the Society for at least two years

3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

PROF. A. N. BHADURI MEMORIAL LECTURE AWARD

Year of Commencement : 2006
Frequency: Once in two years
Value : Rs. 7,500/- with a citation

Eligibility :

1. The recipient of the award should be below 50 yrs of age on December 31st of the year of the award.

2. The award is open to all Indian Scientists who hold permanent position in Universities, public funded Institutes and National laboratories.

3. The award is given for Biological Chemistry and Allied sciences, preferably related to parasitic infections.

3. The eligible person has to be nominated by life member of the society and self nomination is not accepted.

4. A lecture will be scheduled at the Annual Meeting of SBC(I) and presentation will be made at that time.
CAMA MEMORIAL TRAVEL GRANT

Scientists attending and presenting a paper in an International Congress or FAOBMB meeting held once in 2 years or at infrequent intervals may apply for the award.

The candidate should be member of SBC(I) for at least two consecutive years.

The candidate should have obtained partial support from other agencies and there should be a proof to that effect.

Society of Biological Chemists (India) awards one advertised travel grant each year in the newsletter. Applicants are invited to respond appropriately to the details informed in the advertisement. The application should reach the following address before 1st April of the year of the award.

Hon Secretary
Society of Biological Chemists
Indian Institute of Science
Bangalore 560 012

FELLOWSHIPS FOR YOUNG SCIENTISTS
The Society of Biological Chemists has instituted “financial support for research” scheme to support young research workers to carry out short term training/research activities in well established laboratories/ institutions in India. The value of the fellowship is fixed at Rs.5000/- per term per selected fellow and the total number of fellowships awarded every year will be up to ten.

Terms and Conditions

1. Funding Rs.5,000/- per fellow for periods up to 6-8 weeks.

2. The grant of Rs.5,000/- will be awarded in the form of Rs.1,000/- for the fellow as personal maintenance/allowance for a minimum period of 6 weeks and Rs.4,000/- as contingencies for the purchase of laboratory items including stationery, preparation of reports, photographs and other expenses related to the research work

3. The Research/Training may be conducted in any of the leading research institutions/ laboratories/universities, with approval from SBC(I)

4. The candidate should be below the age of 32 years at the time of application.

5. SBC(I) Membership is compulsory for eligibility for the fellowship award.

6. The fellowship amount will be released by SBC(I) to the research supervisor by the 2nd or 3rd week of the training program.

7. **The application should be forwarded through the investigator-in-charge of the laboratory in which the candidate proposes to undergo training.**
INTERNATIONAL TRAVEL FELLOWSHIPS
GUIDELINES FOR AWARDING INTERNATIONAL TRAVEL FELLOWSHIPS FOR Ph.D STUDENTS BY THE SOCIETY OF BIOLOGICAL CHEMISTS (INDIA)

One travel fellowship of Rs.5,000/- per quarter (four awards per year) will be awarded

<table>
<thead>
<tr>
<th>* Award period</th>
<th>** Last Date for receipt of application</th>
</tr>
</thead>
<tbody>
<tr>
<td>I Jan- Mar</td>
<td>Dec 31 Previous Year</td>
</tr>
<tr>
<td>II Apr - June</td>
<td>Mar 30</td>
</tr>
<tr>
<td>III July- Sept</td>
<td>June 30</td>
</tr>
<tr>
<td>IV Oct- Dec</td>
<td>Sept 30</td>
</tr>
</tbody>
</table>

For example, those who wish to attend an International meeting scheduled to be held during July –Sept’2006 should submit the application by 30 June 2006.

*Award period refers to the period during which the meeting is scheduled to take place.
** The Committee will meet on these days to decide on the award

This award is meant for Ph. D students only

The applicant should currently be a member of the SBC(I) and should have been a member for at least two consecutive years.
SBC(I) AWARDS

SREENIVASAYA MEMORIAL AWARD:

Dr. A. N. Radhakrishnan, CMC, Vellore 1972
Dr. B. B. Biswas, Bose Instt., Kolkata 1974
Dr. John Barnabas, NCL, Pune 1976
Dr. N. R. Moudgal, IISc., Bangalore 1978
Dr. N. Appaji Rao, IISc., Bangalore 1980
Dr. A. Surolia, IISc., Bangalore 1982
Dr. P. R. Adiga, IISc., Bangalore 1984
Dr. M. R. Das, CCMB, Hyderabad 1986
Dr. G. K. Garg, G B Pant Univ., Pantnagar 1988
Dr. V. Sitaram, Univ of Pune, Pune 1990
Dr. A. Jagannadha Rao, IISc., Bangalore 1992
Dr. K. Muniyappa, IISc., Bangalore 1994
Dr. Chi. Mohan Rao, CCMB, Hyderabad 1996
Dr. V. Nagaraja, IISc., Bangalore 1998
Dr. Amitabha Chattopadhayay, CCMB, Hyderabad 2000
Dr. Janendra K. Batra, NII, New Delhi 2002
Dr. Debi Sarkar, UDSC, New Delhi 2005
Dr. Yogendra Sharma, CCMB, Hyderabad 2008
Dr. Utpal Tatu, IISc., Bangalore 2011

P. S. SARMA MEMORIAL AWARD:

Dr. L. K. Ramachandran, Osmania Univ., Hyderabad 1973
Dr. C. S. Vaidyanathan, IISc., Bangalore 1975
Dr. T. Ramasarma, IISc., Bangalore 1977
Dr. G. Padmanban IISc., Bangalore 1979
Dr. D. Balasubramanian, CCMB, Hyderabad 1980
Dr. M. R. S. Rao IISc., Bangalore 1985
Dr. B. Bhattacharyya, Bose Instt., Kolkata 1987
Dr. V. Prakash, CFTRI, Mysore 1989
Dr. H. S. Savithri, IISc., Bangalore 1991
Dr. Anil K. Tyagi, UDSC, New Delhi 1993
Dr. Dipankar Chatterjee, CCMB, Hyderabad 1995
Dr. D. N. Rao IISc., Bangalore 1997
Dr. Jaya .S. Tyagi, AIIMS, New Delhi 1999
Dr. Umesh Varshney, IISc., Bangalore 2001
Dr. Pinak Chakrabarti, Bose Instt., Kolkata 2004
Dr. Dulal Panda, IIT Mumbai 2007
Dr. Hari Mishra, BARC, Mumbai 2010

P. B. RAMA RAO MEMORIAL AWARD:

Dr. S. C. Srikantaiah 1983
Dr. P. S. Sastry, IISc., Bangalore 1985
Dr. B. S. Narasinga Rao, NIN, Hyderabad 1987
Dr. M. Jamaluddin, SCTIMC, Trivandrum 1989
Dr. N. C. Mandal, Bose Instt., Kolkata 1991
Dr. K. Subba Rao, Univ. of Hyd, Hyderabad 1993
Dr. R. Nagaraj, CCMB, Hyderabad 1995
Dr. Ashok Khar, CCMB, Hyderabad 1997
Dr. Pijush. K. Das, IICB, Kolkata 1999
Dr. Chitra Mandal, IICB, Kolkata 2001
Dr. K. Srinivasan, CFTRI, Mysore 2003
Dr. Vinod Bhakuni, CDRI, Lucknow 2006
Dr. Y. P. Venkatesh, CFTRI, Mysore 2009
Dr. M.R. Rajeswari, AIIMS, New Delhi 2012

SHADAKSHARASWAMY ENDOWMENT LECTURE AWARD:

Dr. S. Ramkrishnan 1982
Dr. T. N. Pattabhiraman, KMC, Manipal 1984
Dr. P. S. Murthy, UDSC, Delhi 1986
Dr. A. S. Balasubramanian, CMC, Vellore 1988
Dr. R. K. Mandal, Bose Instt., Kolkata 1990
Dr. K. A. Balsubramanian, CMC, Vellore 1992
Dr. A. N. Lahari Majumder, Bose Instt., Kolkata 1994
Dr. K. Muralidhar, Univ of Delhi, Delhi 1996
Dr. V. H. Mulimani, Univ of Gulbarga, Gulbarga 2000
Dr. M. N. Gupta, IIT, Delhi 2004
Dr. N. Sivakumar, Univ. of Hyderabad, Hyderabad 2007
Dr. K.V. Ramaiah, Univ. of Hyderabad, Hyderabad 2010

P. A. KURUP AWARD:

Dr. B. C. Harinath, MGIMS, Wardha 1991
Dr. Veena. K. Parnaik, CCMB, Hyderabad 1997
Dr. Parimal Sen, Bose Instt., Kolkata 2000
Dr. Hasi Das, IGIB, Delhi 2007

C. R. KRISHNA MURTI AWARD:

Dr. P. K. Seth, ITRC, Lucknow 1995
Dr. S. K. Brahmachari, CBT, Delhi 1998
Dr. D. N. Rao, AIIMS, New Delhi 2001
Dr. D. Karunagaran, RGCB, Kerala 2003
Dr. C Durga Rao, IISc., Bangalore 2006
Dr. Pawan Malhotra, ICGEB, New Delhi 2009
Dr. K.P. Gopinathan, IISc., Bangalore 2012

I. S. BHATIA MEMORIAL LECTURE AWARD:

Dr. B. B. Biswas, Univ of Calcutta, Kolkata 2000
Dr. Alok Datta, IICB, Kolkata 2005
Dr. Ram Rajasekharan, CIMAP, Lucknow 2011
A. KRISHNAMURTHY AWARD:

Dr. M. S. Shaila, IISc., Bangalore 1976
Dr. S. K. Patnaik, BHU, Varanasi 1977
Dr. Usha. S. Murthy - 1978
Dr. H. S. Savithri, IISc., Bangalore 1979
Dr. Vidya Gupta 1982
Dr. Raghavendra Gadgkar, IISc., Bangalore 1983
Dr. George Thomas, IISc., Bangalore 1984
Dr. Sridhar. N. Rao 1985
Dr. N. S. Punekar, IISc., Bangalore 1986
Dr. G. L. Prasad, IISc., Bangalore 1987
Dr. P. M. Viegas, BARC, Mumbai 1988
Dr. Kumudini Parkhe, MGIMS, Wardha 1991
Dr. P. L. Jaison, SCTMC, Trivandrum 1992
Dr. Neelima Khairatkar-Joshi, BARC, Mumbai 1993
Dr. K. Mudhusudan, IISc., Bangalore 1994
Dr. Nambirajan, CCMB, Hyderabad 1996
Dr. Sarada Subramanian, IISc., Bangalore 1997
Dr. J. K. Pal, Univ of Pune, Pune 1998
Dr. S. Chandrashekar, IISc., Bangalore 2000
Dr. U. H. Munjunath, IISc., Bangalore 2001
Dr. Beena Pillai, IISc., Bangalore 2002
Dr. Aarohi Kulkarni, NCL, Pune 2003
Dr. Venkatakrishna Rao Jala, IISc., Bangalore 2004

D P Burma Memorial Award:

Dr. G P Talwar, Talwar Res. Foundation, New Delhi 2008
Dr. M. Vijayan, IISc., Bangalore 2010

SOUTHEASTERN UNIVERSITY OF HEALTH SCIENCES, COLLEGE OF OSTEPATHIC MEDICINE
17500 NE, 167TH STREET, NORTH MIAMI BEACH FL 33162 -3017, U. S. A

2927. Dr. GIRISH S. RATNAPARKHI
DEPT. OF CHEMISTRY & BIOCHEMISTRY
#5044, YOUNG HALL 607
CHARLES E. YOUNG DRIVE (EAST)
UCLA, C. A. 90095, U. S. A

2928. Dr. GULAM MUSTAFA SAIFI
SENIOR SCIENTIST
GENEDX INC
207 PERRY PARKWAY, SUITE #6
GAITHERSBURG, MD 20877 USA
gmsaifi@yahoo.com

2929. Dr. HARI S. SHARMA
MAX PLANT INSTITUTE OF MOLECULAR BIOLOGY
DEPT. OF EXPERIMENTAL CARDIOLOGY
NENEKESTR – 2 D- 6350, BAD NAMHEIM WEST GERMANY

2930. Dr. MADAN BABU
M.R.C LABORATORY OF MOLECULAR BIOLOGY
UNIVERSITY OF CAMBRIDGE, HILLS ROAD
CAMBRIDGE, CB2 2H, UK

2931. Dr. MADHAVI BANGARU
660 HUNTINGTON AVE
APT #14, BOSTON 02115 MA USA
madhavi_raghu77@yahoo.com

2932. Dr. JAYAPRAKASHA G.K. (1636)
RESEARCH ASST. PROFESSOR
VEGETABLE & FRUIT IMPROVEMENT CENTER
TEXAS A&M UNIVERSITY
1500 RESEARCH PARKWAY, SUITE A120
COLLEGE STATION, TX 77845, USA
jkip@yahoo.com

2933. Dr. PRADEEP BIST (890)
NFKB SIGNALING LAB, #03-02,
INSTITUTE OF MOLECULAR AND CELL BIOLOGY
A MEMBER OF A*STAR'S BIOMEDICAL SCIENCES INSTITUTES, 61 BIOPOLIS DRIVE (PROTEOS)
SINGAPORE 138673.
pradeepb@imeb.a-star.edu.sg

2934. Dr. RAJNISH KAUSHIK
CENTRE FOR INFECTIOUS DISEASE AND VACCINE RESEARCH
UNIVERSITY OF MASACHNSETTS MEDICAL SCHOOL, 55, LAKE ARC NORTH,
WORCESTER, MASACHNSETTS 01655-0002 U. S. A

2935. Dr. RATHANASWAMI P.
9800, INFLAMMATION & IMMUNOLOGY
RHEUMATOLOGY RESEARCH UNIT
CHUL 2705, BOUL LAURIER ST. FOX QUEBEE GIU 4G2, CANADA

2936. Dr. SAMBUDDHO MUKHERJEE
WEIMBS LABORATORY
NEUROSCIENCE RESEARCH INSTITUTE AND MOLECULAR, CELLULAR AND DEVELOPMENTAL BIOLOGY, UNIVERSITY OF CALIFORNIA SANTA BARBARA , SANTA BARBRA CA 93106-9610, USA
sambuddho@gmail.com

2937. Dr. SHAILAJA SOPORY
2380, SW VERMONT ST. APT #9
PORTLAND, OR 97219 , U. S. A

2938. Dr. SOORYANARAYANA
IMMUNOPATHOLOGIC UNIT
HOSPITAL BROUSSAIS RUEDIDOT PARIS, FRANCE

2939. Dr. SHIBANI MITRA KAUSHIK
CENTRE FOR INFECTIOUS DISEASE AND VACCINE RESEARCH
UNIVERSITY OF MASACHNSETTS MEDICAL SCHOOL, 55, LAKE ARC NORTH,
WORCESTER, MASACHNSETTS 01655-0002 U. S. A
subree@stanford.edu
2940. Dr. SUBBARAYAN P. R.
DEPT. OF BIOCHEMISTRY & MOLECULAR BIOLOGY, UNIVERSITY OF MIAMI
SCHOOL OF MEDICINE, P. O. BOX 016129
MIAMI 33101-6129, U. S. A

2941. Dr. SUBBAYA SUBRAMANIAN (944)
ASSISTANT PROFESSOR
DEPARTMENT OF PATHOLOGY
UNIVERSITY OF MINNESOTA
420 WASHINGTON AVENUE SE
MINNEAPOLIS, MN, 55455

2942. SUSHRUSHA NAYAK (2446)
288, CORRY VLG
APPARTMENT 7, GAINESVILLE
FLORIDA, USA 32603

2943. Dr. SWAMINATHAN C. P.
CENTER FOR ADVANCED RESEARCH IN BIOENGINEERING, W. M. KECK LABORATORY FOR STRUCTURAL BIOLOGY, UNIVERSITY OF MARYLAND BIOTECHNOLOGY INSTITUTE
ROCKVILLE, MD 20850, U. S. A

2944. Dr. UTTAMKUMAR SAMANTA(1097)
DEPT. OF CHEMISTRY AND BIOCHEMISTRY
UNIVERSITY OF DELAWARE
316, DRAKE HALL
NEWARK, DE 19716, U. S. A
usamanta@chem.udel.edu

2945. Dr. VISWANATHAN M.
DEPT. OF PHYSIOLOGY
UMDNJ – R. W. J. MEDICINAL SCHOOL
675, HOES LANE, PISCATAWAY
NJ-08854, U. S. A

2946. Dr. VIJAYA BHASKAR REDDY PICHILI, UNIVERSITY OF MIAMI,
MILLER SCHOOL OF MEDICINE,
MIAMI, FLORIDA,
USA

2947. Dr. VASANATHA KUMAR BHASKARA(1759)
POSTDOCTORAL RESEARCH ASSOCIATE
C/0 Dr. AJAY RANA
DIVISION OF MOLECULAR CARDIOLOGY
CARDIOVASCULAR RESEARCH INSTITUTE
TEXAS A & M UNIVERSITY- HEALTH SCIENCE CENTRE, 1901 S, 1ST STREET, BLDG# 205,
TEMPLE, TEXAS TX 76504
vkbhaskara@medicine.tamhsc.edu
